

Cornerstone and The Educe Group: Plan. Launch. Learn. Thrive.

As a Cornerstone partner, Educe Group helps organizations at every level better understand and fully leverage Cornerstone's powerful talent management capabilities.

You're planning to implement Cornerstone within the next year or two but aren't sure where to begin. Or you're in the middle of implementation and concerned about rollout and adoption. Perhaps you're already a Cornerstone client and your users need more training on getting the most out of new features.

Cornerstone's expertise is in creating one of the most powerful talent management platforms in the world; ours is in helping Cornerstone clients plan, launch, and optimize that platform.

Our consultants not only have combined decades of experience using Cornerstone—they've also worked in the industries they support. Whether you're in healthcare, higher education, life sciences, or finance, our consultants have first-hand experience in your industry's unique talent management challenges.

Educe Group and Cornerstone Together: *Empowering Users and Increasing the Strategic Power of Your Cornerstone Platform*

Whether you're new to Cornerstone or an experienced user, Educe Group's goal is to help you leverage your talent management platform even more powerfully—and strategically—within your organization. This means helping you:

- **PLAN:** Save time and resources by laying key groundwork long before implementation
- **LAUNCH:** Efficiently deploy your Cornerstone platform with minimal disruption for maximum positive impact
- **LEARN:** Engage and empower users with customized training and tools designed to improve ROI
- **THRIVE:** Ensure continued alignment and optimization of Cornerstone, plan for growth, and remove the burden of administrative work

Services

Plan

Our planning services ensure you can lay the groundwork for a successful Cornerstone implementation and rollout—the first time. We'll help you design a talent strategy specific to your needs, from assessing your current environment to clarifying business needs to developing and executing a roadmap. We'll work with you to establish a governance structure to ensure ongoing alignment with your goals and strategies, create budgets and anticipate ongoing costs, and provide guidance on any existing or new issues. We also offer prototyping services to help you envision how your system will work in real life (and gain early buy-in from stakeholders!). This includes modeling critical processes with samples of your own data, as well as configuring the look and feel of the interface.

Launch

Our experience as a Cornerstone partner means we have a best-practices approach to launching your new platform—one that minimizes disruption and maximizes positive impact. By working with your timeline and resource constraints, we'll help you determine what's most important to your organization now and later. To ensure you're up and running with Cornerstone even faster, we'll work with you to optimize your processes ahead of rollout and help you engage stakeholders and drive early adoption with powerful change management strategies.

Learn

Our Learn services ensure Cornerstone's powerful capabilities aren't being underused. We'll help you develop and implement customized training strategies to engage and empower your key personnel, help desk teams, and end users. Our consultants can also provide guidance and hands-on help with content development and integration, from helping you develop custom content to converting existing content and more.

Thrive

If you're already a Cornerstone client, our Thrive services are critical to ensuring your platform continues to be aligned and optimized for your organization. From improving user adoption (key to your ROI) to helping with cloud management and planning for expanding and outsourcing administration, our consultants can help you keep leveraging the full capabilities of your Cornerstone platform.

About Educe Group

Educe Group is a consulting services firm that implements and manages the technologies that enable an organization's people to learn, collaborate, achieve, and be rewarded in the workplace. From technology strategy and vendor selection, to software implementation, managed solutions, and web-based content development, Educe Group has earned a reputation for developing longstanding client relationships based on candid advice and consistent delivery.

About Cornerstone OnDemand

Cornerstone is a global leader in cloud-based SaaS solutions that empower companies to make smarter workforce development decisions at every phase of the employee lifecycle. From recruiting to succession, Cornerstone's unified talent management suite enables stronger, more data-driven choices to help build more impactful teams and address the needs of an evolving global workforce.
